WRIGHT.

PROFEMUR[®]

Total Hip Modular Neck System

Smaller Incisions. Correct Leg Length. Less Tissue Impingement.

LINEAGE® Metal-on-Poly
Cup System

LINEAGE® Metal-on-Metal
Cup System

LINEAGE® Ceramic-on-Ceramic
Cup System

CONSERVE® TOTAL Cup System
with BFH™ Technology

CONSERVE® TOTAL Cup System
with Spiked Shell

Problem:

Fixed Necks
Larger Incision
Tissue Impingement
Leg Length Discrepancies

Solution:

PROFEMUR®
Modular Necks
Minimal Incision
Less Tissue Impingement
Easy Leg Length Correction

The benefits of PROFEMUR® Modular Necks are further complemented by Wright's alternative hard bearings options illustrated at left. These advanced materials are less forgiving to impingement and require optimal head position for ideal longevity, a fundamental feature of the modular neck.
